ABOUT OUR BUREAU

With over two years of experience, we at 88 Engineering Bureau attribute our success to our unwavering commitment to providing our clients with the highest standard of excellence. We achieve this by utilizing our global expertise and knowledge locally.

Our expertise in the field has enabled us to successfully create, plan, execute, and complete over 80 projects for a diverse range of clients in various sectors globally. We are proud of our technical and design proficiency, value-added engineering, high-quality standards, and adaptability to market changes. We stay at the forefront of technology and resource development in the construction industry.

Our organization's growth has been built on key factors such as industry knowledge, network, technical experience, staff development, and training. We constantly reinvent and expand our services to meet our clients' needs. Our Quality Management processes, standards, and policies of operation have been instrumental in growing our team to over 25 skilled professionals.

OUR MISSION

Our mission is to transform the way buildings and communities are designed, built and operated, enabling an environmentally and socially responsible, healthy, and prosperous environment that improves the quality of life.

OUR VISION

Our vision is that buildings and communities will regenerate and sustain the health and vitality of all life within a generation.

CEO'S MESSAGE

JEGER ZEKI AHMED
M.Sc. Bridge Engineering
College Lecturer

We understand that our clients' success is our success, and we are committed to providing the highest standards of service and quality. Our focus on transparency and authenticity ensures that we build trust with our clients and partners, and foster long-lasting relationships based on mutual respect and integrity.

JEGER KHAIRY ISMAEL
M.Sc. Structural Engineering
College Lecturer

Our Bureau has achieved significant growth since its inception in 2020, and we are excited about our promising future. We prioritize transparency and authenticity in our interactions with clients, recognizing the importance of these values in today's world. Unlike many other Bureaus, we ensure that our clients' needs are always at the forefront of our approach.

5) Electrical Designs
6) Mechanical, Plumbing & Drainage Designs
7) Fire Engineering Design
8) Construction Drawings and Specifications
9) Project Management & Supervision
10) Consultancy Services
11) Quantity Surveying
12) Tender Analysis, Evaluation, Recommendation
13) BIM services

SUPERVISED PROJECT

01) New Semel Complex :

The New Semel Complex is made up of twelve apartment towers spread across an area of 42,500 square meters.

02) Ademix Factory :

Ademix Factory produces construction paints, industrial paints, primers, tile adhesives, joint fillers, water and heat insulation products, exterior coating systems, primers, repair mortars, floor coating materials, etc.

04) Zinar PipeLine Factory:

We manufacture high-quality square and rectangle pipes in four large warehouses. Our pipes range from 0.6mm to 4mm thickness and dimensions spanning from 20x20mm to 120x120mm. Additionally, we also produce circle pipes with thicknesses ranging from 0.6mm to 4mm and dimensions spanning from 20x20mm to 120x120mm.

04) Luxe Tower:

The Luxe Tower is a luxurious residential building situated in the Malta district of Duhok. It is comprised of 21 floors and boasts 81 high-end apartments.

05) Duhok Tower 1

06) Life Park :

The green park area features various facilities including tourist apartments, a swimming pool, a restaurant, a mall, and a wedding hall. This expansive area is designed to cater to visitors seeking a relaxing and enjoyable experience.

PROJECT GALLARY

Welcome to our Engineering Bureau's Project Gallery! We are proud to showcase our extensive portfolio of projects that demonstrate our expertise and capabilities in various engineering fields. Our gallery features a wide range of projects, including residential and commercial buildings, infrastructure projects, energy systems, and much more. Each project is unique and tailored to our clients' specific needs and requirements.

Our experienced team of engineers, architects, and designers works closely with our clients throughout the project lifecycle to ensure that every detail is carefully considered and executed with precision. We use the latest technology and software tools to design and simulate the projects, providing our clients with a realistic view of their projects before construction begins.

At our Engineering Bureau, we are committed to delivering projects on time and within budget while ensuring the highest quality standards. We pride ourselves on our ability to turn our clients' visions into reality and exceed their expectations. Please take a moment to browse our project gallery and see for yourself the exceptional work that we have accomplished.
